SUFFIX CODES FOR JOBS DEFINED IN THE DICTIONARY OF OCCUPATIONAL TITLES. (THIRD EDITION).

BUREAU OF EMPLOYMENT SECURITY, WASHINGTON, D.C.

PUB DATE FEB 67

EDRS PRICE MF-$1.25 HC-$11.00 273P.

DESCRIPTORS- *DICTIONARIES, *CODIFICATION, *OCCUPATIONS,

THREE-DIGIT SUFFIX CODES ARE PROVIDED FOR EACH JOB TITLE DEFINED IN THE THIRD EDITION OF THE "DICTIONARY OF OCCUPATIONAL TITLES" (DOT) (VT 003 654 AND VT 003 655), THEREBY GIVING A NUMERICAL IDENTIFICATION TO THE JOB TITLES. THE CODES ARE INTENDED FOR INTERNAL USE WITHIN THE EMPLOYMENT SERVICE. THEY HAVE BEEN PREPARED SPECIFICALLY FOR STATISTICAL REPORTING, TABULATING, AND OTHER ACTIVITIES WHERE TITLES CANNOT BE USED AND IDENTIFICATION IS DEPENDENT UPON NUMERICAL DIFFERENTIATION. THE DATA ARE DISPLAYED IN COLUMNS -- (1) THE THIRD EDITION DOT 6-DIGIT CODE FOR THE JOB TITLE, (2) A UNIQUE 3-DIGIT CODE FOR THE JOB TITLE, (3) THE DOT JOB TITLE, (4) THE INDUSTRY DESIGNATION FOR THE JOB TITLE IN THE DOT, AND (5) THE JOB TITLE CODE IN THE SECOND EDITION OF THE DOT FROM WHICH THE THIRD EDITION TITLE WAS DERIVED. JOB TITLES ARE LISTED IN CODE NUMBER ORDER (001.081 THROUGH 979.887) AND ARE ARRANGED ALPHABETICALLY WITHIN A 6-DIGIT CODE NUMBER. THIS DOCUMENT IS ALSO AVAILABLE AS GPO L7.2--OC1/965/SUFF FOR $1.25 FROM SUPERINTENDENT OF DOCUMENTS, U.S. GOVERNMENT PRINTING OFFICE, WASHINGTON, D.C. 20402. (ET)

INTRODUCTION

This document provides a unique 3-digit suffix code for each job title defined in the third edition of the Dictionary of Occupational Titles, thereby giving a numerical identification to such job titles.

The suffix codes listed herein are intended for internal use within the Employment Service. They have been prepared specifically for statistical reporting and tabulating and other activities where titles cannot be used and identification is dependent upon numerical differentiation.

The data appear in five columns, as follows:

Column 1. The third edition Dictionary 6-digit code for the job title.

Column 2. A unique 3-digit suffix code for the job title. Where a 6-digit Dictionary code number is applied to only one job title, the suffix code is 010. Suffix codes used to identify different jobs having identical 6-digit Dictionary codes begin within each individual 6-digit code with 010, and progress in multiples of 4; i.e., 014, 018, 022, 026.

Column 3. The third edition Dictionary job title (only base and defined related titles are listed).

Column 4. The industry designation for the job title in the third edition of the Dictionary. Where a job title bears more than one industry designation in the

Dictionary, only the first of such multiple designations is listed in this column.

Column 5. The code number in the second edition of the Dictionary for the job title from which the third edition title was derived. Where a third edition job is new to the Dictionary and did not derive from any second edition listing, this column indicates the first three digits of the code the job would have had under the former classification system, plus the digits 999. Although several third edition jobs are actually derived from more than one second edition title and code, only one second edition code is listed in this column.

Job titles are listed in code number order (001.081 through 979.887), and are arranged alphabetically within a 6-digit code number.

The tabular material on the following pages was reproduced from a print-out of a magnetic tape file. For this reason, the longer job titles and industry designations in the text are not completely spelled out, and the only punctuation is the use of the hyphen in some job titles.
